

CLASSIFICATION

Of Grades Under the New System of Promotion to be inaugurated in the Public Schools Monday.

If the patrons of the Center and First District buildings will read this article carefully there will be no need of any misunderstanding relative to the building their children should attend at the beginning of the new semester.

At the Center building Miss Martin will have grades 1 A and 2 A. Miss Hattie Gray 4 B and 4 A; Miss Wilson 6 B and 6 A. No change in the 7th and 8th grades as we now have a teacher for each as it should be. At the First District Building Miss Nash will have the 1 A and 2 B; and Miss Hurd 2 A and 3 B. Miss DeBolt 3 A; and Mrs. Marsh 5 B and 5 A. This means that all 3rd and 5th grades below Limestone Creek will be in the First District Building and all 4th and 6th grades will be at the Center Building, there being no changes in the other grades.

Under this arrangement it will be possible for us to have the proper grading and classification mentioned in previous articles and will permit us having the Mid-year promotion which are so essential to the progress of the pupils. I will repeat this illustration that it may be clear in the minds of all of the parents. Miss Hattie Gray has 47 pupils of the 3rd and 4th grades. If each of those grades were divided into an A and B Section, which must be done to have Mid-year promotions, she would then have four different grades consequently, four different class schedules in the one room which is practically an impossibility considering efficiency. The same condition prevails exactly in Miss DeBolt's room in the First District Building. Now when we give Miss Gray the 4th and Miss DeBolt the 3rd, it is very evident that under those conditions mid-year promotions are feasible.

It is my firm conviction that any parent objecting to such arrangement is clearly working against the interest of their children for whose same interest we are giving our best energies.

It will be my pleasure to advise with any and every parent concerning the changes above outlined and I will endeavor to make everything as clear as possible. The Board of Education and I feel that even though there be criticism at first, time will prove the wisdom of the change and that January 29th, 1917, will be in a few years, one of the Big Days in the Calendar of Maysville's already glorious achievements.

IGNORING FACTS

At frequent intervals during the past three years, the Republican press of the country has presented, for the consideration of the Wilson administration, figures derived from official records and showing that, as a revenue measure, the Underwood tariff has been a failure. That law was passed by a party which claims to be an advocate of a tariff for revenue only, and professes to be vigorously opposed to protection in any form or degree. In its effort to eliminate absolutely all protection from our import tariffs, that party, in framing the Underwood law, cut the import duties so low as to impair its revenue-producing features.

Leaders of the Democratic party have been so uncompromising in their opposition to protection that they would not heed the facts presented by the Republican press showing the need of an increase in import duties for revenue purposes. They have had before them figures showing that during the fiscal year ended June 30, 1913, under a Republican tariff law, the total value of imports was \$1,813,000,000, upon which the government collected customs revenues of the amount of \$318,142,000, and that during the fiscal year ended June 30, 1916, imports aggregated \$2,197,800,000, upon which the government collected import duties amounting to only \$21,866,000. The average rate of duty collected in 1913 under Republican tariff laws was 17.5 per cent, and in 1916 under the Underwood tariff law only 9.72 per cent.

Today the Democratic administration finds itself in dire straits for want of revenue. It faces the probability, if not the certainty of a deficit of \$300,000,000 in the next fiscal year, unless some measures be found to provide more Federal income. It also faces the probability, if not the certainty, that upon the close of the war European and Asiatic nations, which have in the past two years brought their productive industries to the highest state of efficiency, will pour their surplus manufactured products into our markets.

With these two vital facts before them and frequently impressed upon them by the Republican press, the administration hesitates and apparently refuses to revise its tariff law, for the purpose of either protection or revenue. With the same degree of stupidity which it manifests in the handling of foreign affairs, it demonstrates its inability to grasp the simplest elements of domestic economy. It hopes in some way to find some means of imposing further taxes upon our own people and gives not a thought to the opportunity to impose a tax upon those foreign producers who ship their products into our markets for sale in competition with the products of American enterprise.

Whether the administration will ultimately awake to the situation and to its duty, is doubtful. However that may be, the Republican press of the country may have the satisfaction of knowing that it has faithfully performed its duty in the collection and presentation of facts which are of vital importance to the welfare of the country, regardless of partisan politics.

ENCROACHING ON PRIVATE BUSINESS

Representative Hampton Moore directs attention to the manner in which the United States Government is more and more encroaching on private business and he expresses a doubt whether the American people appreciate the grave significance of this movement or the extent to which it has already gone.

It is practically certain that they do not, but many thoughtful men have observed and have been most unfavorably impressed by the situation upon which Mr. Moore, with characteristic intelligence and good sense, has been commenting, and have felt that unless this country is to abandon the ideals which it has heretofore cherished and to repudiate the principles upon which this republic was established it is about time to call a halt and to arouse public opinion in resistance to the socialistic tendencies which under the present administration have attained to such a surprising and sinister development.

The policies which have been adopted in this connection by the party now in power, and the measures which it has effectuated, would have astonished and disgusted its reputed founder, Thomas Jefferson, by whom all Democrats were wont to swear, and to whom most of them still profess allegiance. He entertained theories of the function of government diametrically and irreconcilably opposed to much of the current legislation for which the Democratic Party has made itself responsible. He held that the best government was the one that governed least; that nothing should be undertaken by the government enterprise and that its activities should be strictly confined to the province which everyone recognized as distinctly its own. In providing for the safety of the citizen in his person and in his property and in securing to all an equality of opportunity, its whole duty had been done.

It is a far cry from those views and doctrines to the theories and practices of the party which claims to have inherited the Jeffersonian tradition. The idea which its proceedings during the past four years, or nearly so, has exemplified is that the activities of the government should be as much as possible enlarged. One law after another has been enacted apparently based upon the supposition that the government is more efficient than private enterprise, a supposition which every scrap of evidence bearing upon the subject flatly contradicts, and a progress has been made toward the institution of a State Socialism of which the average American citizen has a very inadequate conception.

Of course, the entrance of the government into any field of industrial production renders private competition within that field impracticable and generally works the confiscation of the capital which had therein been invested. Perhaps the American people approve this kind of thing and desire its continuance. If so, they have undergone a strange change of heart.—Philadelphia Inquirer.

The Monroe Doctrine stands as our declared policy in international relations, and there is no more power in the White House to extinguish it, or to pledge the people and the government of the United States to the guarantee of European boundaries, than there is in this newspaper or in the executive offices of the Pennsylvania railroad.—New York Sun.

Remember that Mississippi, with ten electoral votes, as against Nebraska's eight, cast less than half Nebraska's vote at the polls. It is this disfranchisement of voters in the South that keeps the Democrats in the saddle.—Omaha Bee.

TIRED WORKING MEN

A Local Druggist Suggests a Remedy For Overworked, Run-Down Men.

The following letter from Manager Hodges recounts the experience and condition of many Maysville men. Read this letter and our offer when follows:

Brooklyn, N. Y. "I am a general office manager, and became so nervous and run-down in health that I lost my appetite and finally my health broke down completely, largely because of overwork. I tried Beef Iron and Wine, and other remedies without help. I saw Vinol advertised, and soon after taking it I noticed an improvement. I now have a hearty appetite, sleep better, feel better and have gained considerable in weight." Samuel Hodges, 601 Stone Ave., Brooklyn, N. Y.

The reason Vinol is so successful in such cases is because it contains the oldest and most famous tonics, viz., beef and cod liver peptones, iron, manganese peptones, and glycerophosphates.

We ask every run-down, over-worked man in Maysville to try a bottle of Vinol with the understanding that their money will be returned if it fails to help them as it did Mr. Hodges. John C. Pecor Drug Co., Maysville, Ky. Also at leading drug store in all Kentucky towns.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my housework. I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is."—Mrs. CARL A. KIESO, 696 North Ave., Aurora, Ill. The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills. Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. FIRE INSURANCE FIRM DIRECTORS ARE REMOVED

Lexington, Ky., January 25—The board of directors, with one exception, and all officers of the Henry Clay Fire Insurance Company, were re-elected in successive annual meetings of the stockholders and the board of directors here yesterday. The single exception was in the election of H. L. Grooms, a banker, of Fountain Run, to succeed Lester Witherspoon resigned, on the board of directors.

A communication from the Frankfort Chamber of Commerce inviting the company to make its headquarters in Frankfort, the home of the United American Insurance Company with which it consolidated several years ago, was read at the meeting. On motion of the Frankfort stockholders the officers were appointed as a committee to consider the proposal. Frankfort, it is understood, has been urging the company to move its head offices there since its organization. It is stated there is only a remote possibility of the offices being moved from Lexington.

Mr. W. H. Cox of Maysville was re-elected as one of the directors of the company. There are a large number of stockholders in Mason county.

LOOKS LIKE A FAIR

Yesterday one of the local men, who is very much interested in the project of establishing a country fair in this county, received a letter addressed to the Secretary of the Maysville Fair Association. Upon opening it proved to be a communication from Mr. J. H. Meyer of Lima, Ohio, asking for the privilege of a merry-go-round during the Maysville Fair the coming season. The man had evidently heard of the campaign being conducted to establish a fair here and wanted to be the first one to get the privilege. As this campaign for the fair has been conducted through the columns of the Ledger, it is another proof that advertising in this paper pays.
